

Date/Time: 900 AM Monday September 15, 2008

Meteorologist: Bryan Rappolt

Heavy Precipitation Outlook

Flash Flood Prediction Program

SUNNY AND WARMER

- It will be much warmer today with a plethora of sunshine and light winds. High temperatures will be in the middle to upper 70's.
- More sun than clouds and above normal temperatures can be expected through Friday. No significant precipitation is expected through Friday.

Today concludes the 2008 UDFCD Flash Flood Prediction Program. Any comments can be directed to Kevin Stewart, program manager, @ kstewart@udfcd.org or 303-455-6277

STORM RAINFALL POTENTIAL AND DURATION: None

MESSAGE POTENTIAL: None
