## MESSAGE 1

### Flash Flood Prediction Program

---

### STREET FLOODING POTENTIAL

---

We have determined that street and small stream flooding is possible in the following counties: **Boulder (City of Boulder affected, Four Mile Burn Area affected), Jefferson, Broomfield, Douglas, Adams, Denver, Arapahoe** including: **DIA, the City of Aurora, Arvada, Wheat Ridge, Lakewood**

from: **1030 AM** to **1000 PM**.

Prime time for flooding: **1100 AM** to **900 PM**.

Forecast rainfall: Moderate and strong thunderstorms will have the potential to produce rainfall amounts of 0.4-1.2" in 10-30 minutes. A large, slow moving, strong thunderstorm or training of thunderstorm cells may result in up to 2.3" of rainfall in 60-90 minutes. Persistent/steady rain showers also have the potential to produce up to 1"/hr rainfall rates.

The most likely areas to be impacted by flooding are:

Mountain streams & floodplains; road crossings; canyon roads & highways; recreational trails; adjacent open space areas/campgrounds/parks; fishing access points & stream reaches; buildings near streams; utilities

Urban streams/gulches; road crossings; recreational trails; adjacent open space areas/campgrounds/parks; floodplain properties; utilities

Urban streets, intersections, low lying areas, known trouble spots

Mountain locations subject to mud/rock/debris slide

Additional Information: **Strong thunderstorms may also produce frequent cloud-to-ground lightning, gusty straight-line winds and large hail.**

This message is not intended for public dissemination. Please pass this information along to affected emergency response organizations (police, fire, public works, etc.) within your area.

Also, please take appropriate actions to prepare for possible flooding.

Further information will be provided to you as it becomes available.
